The Oxygenator

Nature's Cure
For Nature's Ills

Not a Drug No Electricity Not a Battery

WHAT THE OXYGENATOR IS—

The Duplex Oxygenator consists of a scientific arrangement of metals and materials so constructed as to affect the polarity of the human body.

It weighs two pounds and is one and one-half inches in diameter. It is seven inches long and is nothing like an electrical device.

The Oxygenator never requires recharging, as you receive it from us you use it forever—the simple, silent doctor—does its duty and sends in no bills.

WHAT THE OXYGENATOR DOES.

The Oxygenator causes the body to absorb large quantities of oxygen (nature's greatest curative element), thus burning up all diseased or foreign matter contained therein. In other words, it cleanses the human body.

OXYGEN as applied by the OXYGENATOR enters at every one of the three million pores of the human body. There is REAL DISTRIBUTION. If oxygen is restored to the blood of a sick person, it RENEWS THE BLOOD'S FIGHTING POWER AND THUS DESTOYS THE DISEASE.

The Oxygenator Uses Oxygen That Is All

Oxyopathy is a universal treatment. The Oxygenator treats the condition rather than the disease. It does not cure in a medical sense. It fortifies the human system with the necessary weapon—oxygen—to fight the disease itself in its own natural way. Thousands of people throughout the civilized world restored to health and happiness through their personal use of the Oxygenator.

What the Oxygenator has done for others it can do for you. Call and let us explain this modern method of curing you and learn of people here in Phoenix who have used the Oxygenator.

Our book, "Oxyopathy," is yours for the asking. The Oxygenator is sold under guarantee.
